To Whom It May Concern,

I am writing to provide a reference for RAF Electrical Services, who has served as an electrical contractor for our company on multiple data centre projects across Europe. Over the past 10 Years, they have proven themselves to be a highly reliable and skilled contractor, specializing in cable pulls, terminations, and related electrical work critical to data centre operations.

RAF Electrical Services were involved in major projects where they handled complex cable installations, including high-capacity fibre optics and power distribution cables, with great precision and efficiency. They have consistently delivered work to a high standard, meeting tight deadlines and adhering to all project specifications and safety regulations. Their team worked seamlessly with other contractors and demonstrated excellent problem-solving skills when unexpected challenges arose on-site.

Some key highlights of their work with us include:

- **Expertise in Cable Pulls and Terminations:** They have completed thousands of meters of cable pulls in high-stakes environments, ensuring minimal downtime and secure connectivity for mission-critical systems.
- **Efficiency and Precision:** Their attention to detail in terminating cables accurately has been critical in maintaining the reliability and integrity of our data centres' electrical infrastructure.
- **Adaptability in Large-Scale Projects:** They have successfully executed projects in multiple countries, showing an ability to manage local regulations, supply chain logistics, and multi-national coordination.
- **Commitment to Safety:** Throughout the projects, they adhered to the highest safety standards, ensuring a secure working environment both for their team and others on-site.

We would not hesitate to recommend RAF Electrical Services for any large-scale electrical projects, particularly those involving data centres or other high-tech infrastructure. Their expertise and professionalism have made them an invaluable partner on our projects, and we look forward to working with them again in the future.

If you require any further information, please do not hesitate to contact me.

Sincerely,

Mike Fitzgerald

Director
